

BID2WIN SOFTWARE INC. NAMES 2009 CLIENT REFERRAL PROGRAM GRAND PRIZE WINNER

Portsmouth, NH, December 17, 2009 – BID2WIN Software Inc. is pleased to announce that the grand prize winner of their 2009 Client Referral Program is Doug Clements of Ralph L. Wadsworth Construction Company.

As the grand prize winner, Doug will receive a custom vacation--selecting the location (or locations!), accommodations and travel arrangements of his choice.

Doug was selected in a random drawing of those who referred new business through the BID2WIN Software Client Referral Program throughout the course of 2009. Ralph L. Wadsworth Construction is a Draper, Utah-based company that constructs multi-million dollar projects throughout the Intermountain West. The company thrives on projects that are difficult, unusual or out of the ordinary, believing that this helps to generate the creativity and team building that has led to much of their success and customer satisfaction.

The Client Referral Program, which runs annually, was created in 2006 as a way to reward clients for referring potential business to BID2WIN Software. Each client who refers a prospect that purchases BID2WIN and/or BUILD2WIN by year-end will receive a \$500 or \$1,000 American Express gift card, and will be entered into a drawing for the grand prize. Past grand prizes have included an all expenses paid trip for two to Hawaii, tickets for two to the 50th running of NASCAR's Daytona 500, and a custom home theater system from Best Buy.

BID2WIN Software will announce the 2010 Client Referral Program in early January, with another spectacular grand prize. For more information on the 2010 Client Referral Program, please visit www.bid2win.com/referral.

Located in Portsmouth, NH, BID2WIN Software Inc. offers state-of-the-art enterprise-class construction management solutions for the infrastructure industry worldwide, and is the leading provider of Windows-based cost estimating and bidding solutions. The company's flagship product, BID2WIN Estimating & Bidding, is the first estimating and bidding software built from the ground up with a true client-server architecture utilizing Microsoft .NET and SQL Server technology, offering a unique competitive advantage and superior performance and flexibility. BID2WIN helps leading construction firms increase profitably through more accurate and efficient estimating and bidding. And BUILD2WIN Field Tracking is the first browser-based solution of its kind, allowing real-time collection and analysis of production and related job performance cost data.
