

BID2WIN SOFTWARE INC. ANNOUNCES USER CONFERENCE 2010

Portsmouth, NH, July 14, 2009 – BID2WIN Software Inc. is pleased to announce that it will host its annual User Conference at the Boca Raton Resort & Club, February 8-11, 2010 in Boca Raton, Florida.

BID2WIN Software has hosted two successful conferences at the Boca Raton Resort & Club in the past, and with over 200 million dollars in renovations recently completed throughout the property, the company is excited to welcome its clients back to the venue in 2010.

The annual BID2WIN Software User Conference is a three day event that allows BID2WIN Software clients to enhance their product knowledge, network with industry colleagues and provide feedback to the entire BID2WIN Software team. Attendees will enjoy the opportunity to learn what's new in BID2WIN and BUILD2WIN during tracks & training and get hands-on assistance in the company's popular Software Solutions Centers—featuring a total of more than 100 computer workstations. Plus, UC2010 attendees will have the exclusive opportunity to learn firsthand all of the exciting developments that BID2WIN Software has planned for the upcoming year.

UC2010 will feature several exciting new changes, including a fifth track for personalized private training, where attendees can customize a one-on-one training session around the specific needs of their company. More details on the fifth track and other conference changes can be found in the official UC2010 brochure, being released in September.

Registration for User Conference 2010 will open August 1, 2009. For more information, please contact Megan Call, marketing associate, at mcall@bid2win.com or (603) 570-2540.

Located in Portsmouth, NH, BID2WIN Software Inc. offers state-of-the-art enterprise-class construction management solutions for the infrastructure industry worldwide, and is the leading provider of Windows-based cost estimating and bidding solutions. The company's flagship product, BID2WIN Estimating & Bidding, is the first estimating and bidding software built from the ground up with a true client-server architecture utilizing Microsoft .NET and SQL Server technology, offering a unique competitive advantage and superior performance and flexibility. BID2WIN helps leading construction firms increase profitably through more accurate and efficient estimating and bidding. And BUILD2WIN Field Tracking is the first browser-based solution of its kind, allowing real-time collection and analysis of production and related job performance cost data.
